

ERGENE®

CHEMICAL GENERAL MAINTENANCE

Technical Data Sheet

ER. 830. SPINERRET OIL

ERGENE – ER. 830 is a highly effective release agent producing especially fine results with hard to release materials such as polyurethane but can also be used as a general purpose release agent. It is formulated with waxes to give maximum release effect. Its low surface tension gives a maximum release effect with no sticking, spotting, or making.

Applications

ERGENE – ER. 830 formulated for use in all mold applications. May be used for acrylic, cellulosic, rubber, various plastic, and sands core release for metal casting.

Advantages

- Helps produce clean pieces with a fine “feel” and a high gloss surface.
- Helps prevent-sticking on stright sides or fearing of thin sections.
- Helps eliminate oranges peel and blisters.
- Gives multiple release, speeds ciclyng. Multiple releases with one application from molds of aluminium steel, etc. compression or injection. Easily applied. Speed work. Increase production. Concentrated to give more releases per application.
- Keep molds cleaner. Will not oxidizer or carbonize. Keeps molds service longer. Lengthens stripping cycle. Thin coat required will not alter mold dimensions or details.

Packaging

- 500 ml / Can
